

SPECIES FACT SHEET- ARGENTINE SHRIMP

Market name: ARGENTINE SHRIMP
Scientific name: Pleoticus Muelleri
Superfamily: Penaeoidea
Family: Solenoceridae

Local names:
Spanish: Gambón austrak
French: Crevettes d'Argentine
Italian: Gambero argentino

Description

Description: Whole (head on Shell on) Argentine shrimp, graduated, frozen on board, raw.
Ingredients: Shrimp, water, antioxidants: E-222, E-300, E-331iii
 Contains sulphites
Catching zone: FAO 41
Catching method: Extractive fishing

Product presentation

Box: Cardboard telescope box
Net weight: 2,0 Kg /4,4 lbs
Presentation: Product protected by a transparent polyethylene foil
Master carton: Cardboard regular slotted box 12 kg (6 x 2)
Palletization: European pallet, 60 masters (6 x 10)

Classification (pieces per Kg):
 L1: 10/20 ppk (50,0-100 g/piece)
 L2: 21/30 ppk (33,3-50,0 g/piece)
 L3: 31/40 ppk (25,0-33,3 g/piece)
 L4: 41/60 ppk (16,7-25,0 g/piece)
 L5: 61/80 ppk (12,0-16,7 g/piece)

Nutrition facts per 100 g

Calories: 84 Kcal
Proteins: 17,7 g
Total carbohydrate: 0,5 g
Available carbohydrate: 0,5 g
Total fat: 1,5 g

* Values can vary depending on season

Additional information

Due date: 18 months after production date
Storage and handling: Keep frozen at -18° C
 Once defrosted, product must be consumed within 24 hours.
 Do not refreeze once thawed

SPECIES FACT SHEET- PEELED ARGENTINE SHRIMP

Market name:	PEELED ARGENTINE SHRIMP
Scientific name:	Pleoticus Muelleri
Superfamily:	Penaeoidea
Family:	Solenoceridae
Local names:	
<i>Spanish:</i>	<i>Gambón austral pelado</i>
<i>French:</i>	<i>Crevettes d'Argentine épluchées</i>
<i>Italian:</i>	<i>Gambero argentino sgusciato</i>

Description

Description:	Tails (shell off) Argentine shrimp, peeled and frozen
Freezing:	IQF
Ingredients:	Shrimp, water, antioxidants: E-222, E-300, E-331iii Contains sulphites
Catching zone:	FAO 41
Catching method:	Extractive fishing

Product presentation

Box:	Transparent polyethylene bag
Gross weight:	1.000 g
Net weight:	800 g
Glaze:	20%
Master carton:	Cardboard regular slotted box, 10 kg (10 x 1)
Palletization:	European pallet, 60 masters (6 x 10)
Classification (pieces per Kg):	CP extra (100% whole pieces): 10/20 ppk (100-50 g/piece) CP (100% whole pieces): 20/30 ppk (33,3-50,0 g/pieces) CP mix (85% whole pieces): 20/40 ppk (25,0-50,0 g/piece)

Nutrition facts per 100 g

Calories:	84 Kcal
Proteins:	17,7 g
Total carbohydrate:	0,5 g
Available carbohydrate:	0,5 g
Total fat:	1,5 g
* Values can vary depending on season	

Additional information

Due date:	18 months after production date
Storage and handling:	Keep frozen at -18° C Once defrosted, product must be consumed within 24 hours. Do not refreeze once thawed

SPECIES FACT SHEET- ARGENTINE SHRIMP TAILS

Market name:	ARGENTINE SHRIMP TAILS
Scientific name:	Pleoticus Muelleri
Superfamily:	Penaeoidea
Family:	Solenoceridae
Local names:	
<i>Spanish:</i>	<i>Colas de gambón austral</i>
<i>French:</i>	<i>Queues de Crevettes d'Argentine</i>
<i>Italian:</i>	<i>Code di gambero argentino</i>

Description

Description:	Tails (shell on) of Argentine shrimp, graduated, frozen on board, raw
Ingredients:	Shrimp, water, antioxidants: E-222, E-300, E-331iii Contains sulphites
Catching zone:	FAO 41
Catching method:	Extractive fishing

Net weight:	2,0 Kg /4,4 lbs
Presentation:	Product protected by a transparent polyethylene foil
Master carton:	Cardboard regular slotted box, 12 kg (6 x 2)
Palletization:	European pallet, 60 boxes (6 x 10)
Classification (pieces per Kg):	C1: 30/55 ppk (18,2-33,3 g/piece) C2: 56/100 ppk (10,0-17,9 g/piece) C3: 101/150 ppk (6,7-9,9 g/piece) CR: 30/150 ppk (9,9-33,3 g/piece)

Nutrition facts per 100 g

Calories:	84 Kcal
Proteins:	17,7 g
Total carbohydrate:	0,5 g
Available carbohydrate:	0,5 g
Total fat:	1,5 g
* Values can vary depending on season	

Additional information

Due date:	18 months after production date
Storage and handling:	Keep frozen at -18° C Once defrosted, product must be consumed within 24 hours. Do not refreeze once thawed

SPECIES FACT SHEET – SEA FROZEN SCAMPI PORCU PINE

Market name:	SEA FROZEN SCAMPI PORCUPINE
Scientific name:	Nephrops Norvegicus
Superfamily:	Nephropoidea
Family:	Nephropidae
Local names:	
<i>Spanish:</i>	<i>Cigala congelada a bordo Gran Sol</i>
<i>Francés:</i>	<i>Langoustines surgelées à bord Grand Soleil</i>
<i>Italiano:</i>	<i>Scampi congelati a bordo Porcupine</i>

Description

Description:	Whole scampi, frozen on board, raw
Ingredients:	Scampi, wáter, antioxidant: E-223 Contains sulphites
Catching zone:	FAO 27 – Porcupine Bank
Catching method:	Extractive fishing

Product presentation

Box:	Cardboard telescope box
Net weight:	3,0 Kg
Presentation:	Product protected by a transparent polyethylene foil
Master carton:	Cardboard regular slotted box 9 kg (3 x 3)
Palletization:	European pallet, 54 boxes (3 x 18)
Classification (pieces per Kg):	3/5 ppk (200-3333 g/piece) 5/10 ppk (100-200 g/piece) 10/15 ppk (66,7-100 g/piece) 15/20 ppk (50,0-66,7 g/piece) 20/30 ppk (33,3-50,0 g/piece) 30/40 ppk (25,0-33,3 g/piece)

Nutrition facts per 100 g

Calories:	85,3 Kcal
Proteins:	17,7 g
Total carbohydrate:	0,5 g
Available carbohydrate:	0,5 g
Total fat:	1,5 g
* Values can vary depending on season	

Additional information

Due date:	18 months after production date
Storage and handling:	Keep frozen at -18° C Once defrosted, product must be consumed within 24 hours. Do not refreeze once thawed

SPECIES FACT SHEET – WHOLE PATAGONIAN SQUID

Market name: PATAGONIAN SQUID
Scientific name: Loligo gahi
Familia: Loliginidae

Local names:
Spanish: Calamar patagónico
French: De calmar
Italian: Calamaro patagonico

Description

Description: Whole patagonian squid, graded, frozen onboard and raw
Ingredients: squid, water
Catching zone: FAO 41
Catching method: Extractive fishing

Product presentation

Box: Cardboard telescope box + plastic bag
Net weight: 10 kg aprox
Presentation: Block, in transparent bag
Palletization: European pallet, 96 boxes per pallet
**Classification:
(cm per tube)** C-1 (22-26 cm)
 C-2 (19-22 cm)
 C-3 (16-19 cm)
 C-4LL (14-16 cm)
 C-4L (12-14 cm)
 C-C (9-12 cm)

Nutrition facts per 100 g

Calories: 80 Kcal
Proteins: 17,0 g
Total carbohydrate: 0,54 g
Available carbohydrate: 0,54 g
Total fat: 1,2 g

* Values can vary depending on season

Additional information

Due date: 24 months after production date
Storage and handling: Keep frozen at -18° C
 Once defrosted, product must be consumed within 24 hours.
 Do not refreeze once thawed

SPECIES FACT SHEET – PATAGONIAN SQUID RINGS

Market name:	PATAGONIAN SQUID RINGS
Scientific name:	Loligo gahi
Family:	Loliginidae
Local names:	
<i>Spanish:</i>	<i>Calamar patagónico troceado</i>
<i>French:</i>	<i>De calmar coupé</i>
<i>Italian:</i>	<i>Calamaro patagónico pulito</i>

Description

Description:	Patagonian squid rings, frozen and raw
Ingredients:	Squid, water
Catching zone:	FAO 41
Catching method:	Extractive fishing

Product presentation

Box:	Bulk or 1 Kg plastic bags in cardboard telescope box
Net weight:	6 or 6x1 Kg
Presentation:	IQF 1 kg bags
Glazing:	10%
Palletization:	European pallet, 902 master cartons

Nutrition facts per 100 g

Calories:	80 Kcal
Proteins:	17,0 g
Total carbohydrate:	0,54 g
Available carbohydrate:	0,54 g
Total fat:	1,2 g

* Values can vary depending on season

Additional information

Due date:	24 months after production date
Storage and handling:	Keep frozen at -18° C Once defrosted, product must be consumed within 24 hours. Do not refreeze once thawed

SPECIES FACT SHEET- HAKE

Market name: HAKE HGT
Scientific name: Merluccius Hubbsi
Order: Gadiformes
Family: Merlucciidae

Local names:
Spanish: Merluza
Francés: Merlu
Italiano: Nasello

Description

Description: Hake HGT frozen on board
Ingredients: Hake, water
Catching zone: FAO 41
Catching method: Extractive fishing

Product presentation

Box: Carton box
Net weight: 24 Kgs aprox
Presentation: Carton boxes. Wrapped or interlieved
Palletization: 40 boxes

Classification grs/piece:

Size 100/200	Size 1200/1400
Size 200/300	Size 1400/1800
Size 300/450	Size 1800
Size 450/600	
Size 600/900	
Size 900/1200	

Nutrition facts per 100 g

Calories: 4,91 Kcal
Proteins: 14,65 g
Total fat : 3,65 g

* Values can vary depending on the season

Additional information

Due date: 24 months after production date
Storage and handling: Keep frozen at -18° C
 Once defrosted do not freeze again
